**Jon Linn Gallery
Winter 2022 Exhibit
Maine Lighthouses & Bridges**

Jon Linn Gallery, 33A Front St. Belfast, Maine

Gallery hours are: weekend days, 11 to 4. For custom hours contact Jon.

The Maine Lighthouses & Bridges Exhibit

The Lighthouses & Bridges Exhibit runs from January through May 2022.

The exhibit is a collection of thirty-one aerial photographic images of scenes on the waters of Maine: inland rivers and coastal bays.

Images in the collection were captured from 2016 through 2021, mostly within day trips centered on our base in Belfast.

Maine Landscape Photos

Jon's landscape photos seek to create mood and drama through light and shadows, texture and layers, drawing the viewer's attention to the horizon and back. Their focus is on the sky, horizon, hills and foreground, with anthropocene structures as context.

Metal Prints

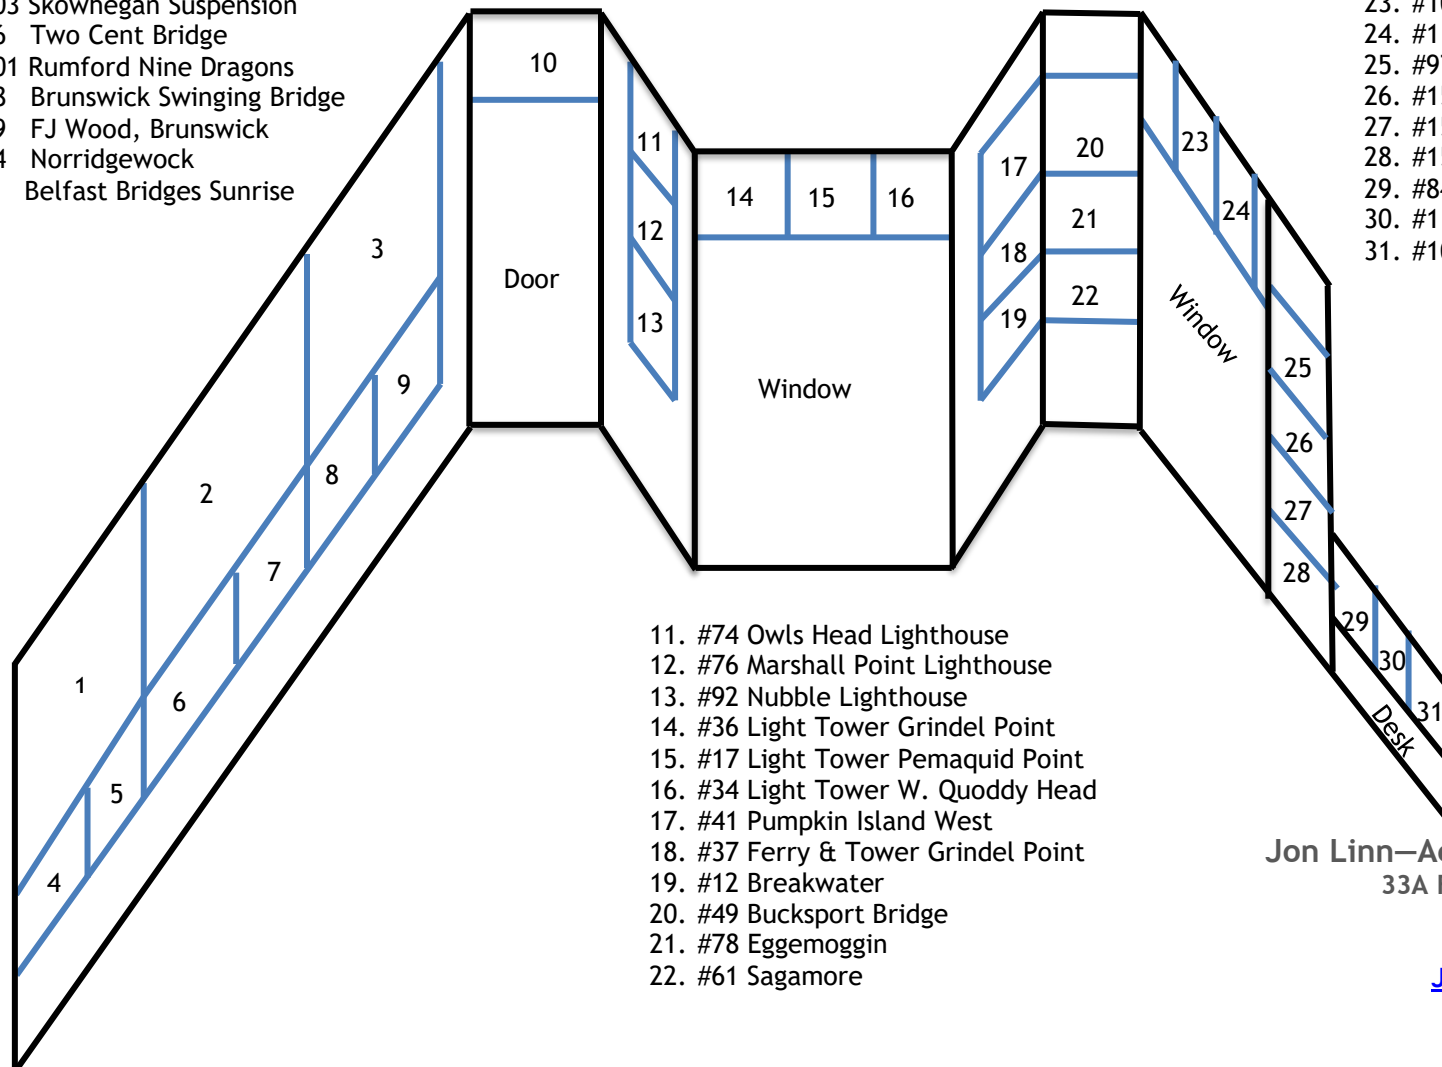

Prints are available for sale at the gallery and [online](#): metal prints, dye-sublimation on aluminum. All are landscape oriented, 16:9 aspect ratio. Sizes range from 12" to 48" wide. Contact Jon Linn for details.
